

The Pioneer Forecart

Proven by many years of on-the-farm performance, the popular Pioneer forecart offers dependable trouble free service on the road and in the field. Quality materials and workmanship throughout, combined with a simple, well-balanced design means true value and economy. Originally designed and built for horse farmers the Pioneer cart has evolved into an important tool for all horse and mule owners. Whether you horse farm, breed, train, or just want to exercise your horses, mules, or ponies, these versatile Pioneer carts will fit your application.

Features & Specifications

- Non-Slip expanded metal floorboards
- Extra-wide rear drawbar
- Adjustable hitch for 2 to 4 horse hitches
- Heavy-duty reinforced spindles
- Tapered roller bearing wheel hubs

LED Lights

Prepare your forecart for the road. Our kit includes 2 amber flashing LED lights with battery and switch, reflective tape and SMV emblem. It is easy to install on any forecart with a bench seat.

Cargo Tray

Now you have a way to haul all of your extra cargo. Available as either bolt on (2-bolts on drawbar) or Reese hitch tube. Fits all forecart models. Inside Dimensions: 17" wide x 29" long x 9" high.

Reese Hitch Receiver

Receiver will take any 2" Reese insert including our new Cargo Tray. Remove insert to access drawbar holes without removing the receiver.

Shafts

For single horse driving. Our shafts feature all steel construction for safety and durability. Easily switch from tongue to shafts using only two bolts. Length from singletree to front of shaft pipe: Pony = 60", Cob = 70", Haflinger = 76", Draft = 87"

Tongues

Available in ash hardwood or steel construction. Three position mounting for special hitches. Length from hitch pin to neckyoke: Pony = 85", Haflinger = 102", Draft = 118"

Brakes

Mechanical Brakes are band type with replaceable lining. Foot pedal operated with lock.

Hydraulic Brakes are 10" trailer type and foot pedal operated with lock valve. All brakes are factory installed, tested and adjusted.

Torsion Axles

Smooth your ride over rough terrain with trailer type rubber torsion axles. This factory-installed option is only available on heavy-duty Draft, Haflinger and Pony forecarts, with either no brakes or hydraulic brakes.

Sun Shade

Provides added comfort and protection from the sun when driving on warm summer days. Easily mounts on any draft forecart with bench seat.

Toolbox

Ideal for tools, gloves and spare parts. Made of cast aluminum, it will never rust. Easily mounts on guard or seat post.

Implement Seat

Ideal for all farm applications. Attach to spring-mounted seat bracket. Swivels a full 360 degrees and locks in any position.

Bench Seat

The perfect choice for pleasure driving. Leaf springs provide comfort and a smooth ride. Added safety for student teamsters. Overall width: 44"

Cushions: For additional comfort and a classic look. Choose either burgundy or black vinyl.

Canvas Seat Cover

Keep your seat clean and dry. Made from durable, waterproof canvas material.

Fenders

Cover your wheels and extend the platform for added teamster safety. We recommend the use of fenders when using a bench seat.

Wheels

Select the proper wheel for your application.

- Air Tires
- Steel wheels

Or convert your forecart to a sled using our bolt-on sled runners.

Cupholder

Take your drink to the field. Whether it's hot coffee in the morning, or a cold drink in the afternoon.

Whip Socket

Tapered design to fit most any style whip.

Hillside Steering

Works well for hillside row crop applications, allowing you to steer the wheels right or left. Easy to reach, hand lever operation. This factory-installed option is only available on heavy-duty draft forecarts.
